SUMMARY

UI/UX-focused Frontend Developer specializing in React, JavaScript, and CSS. Built and deployed responsive, accessible web interfaces across 4 projects, including full-stack systems and e-commerce platforms. Strong at translating user stories into intuitive UI designs and maintainable frontend implementations.

PROJECTS

Personal Portfolio Website (2026)

Personal Project | Full-Stack Developer & UI/UX Designer

- Developed a responsive personal portfolio website using React, JavaScript, and CSS to showcase projects and skills
- Implemented version control with Git and deployed the site via GitHub Pages for public hosting and seamless updates
- Designed intuitive UI/UX elements focusing on user navigation, accessibility, and modern aesthetics

Design Software & E-Commerce Platform with 3D Avatar (2025)

Capstone Project | Assistant Project Manager & System Analyst

- Created detailed system flowcharts and contributed to process planning for an innovative e-commerce platform featuring customizable 3D avatars
- Collaborated on requirements gathering, user stories, and documentation to ensure alignment with project goals
- Supported final documentation development, resulting in a comprehensive handover for potential implementation

Resort Reservation System with 360° View, PayPal Integration & Chatbot (2024)

Academic Project | Full-Stack Developer & Documentation Lead

- Built a full-stack web application using PHP, HTML, CSS, JavaScript, and MySQL to manage resort bookings and user interactions
- Integrated PayPal for secure payments, a 360° virtual tour for immersive property previews, and a chatbot for real-time customer support
- Led technical planning and comprehensive system documentation to facilitate maintenance and future enhancements

Gym Management System with Fitness Tracking & Reports (2023)

Academic Project | UI/UX Designer & Programmer

- Designed user-friendly interfaces for web and desktop versions, prioritizing intuitive navigation and responsive layouts
- Developed the daily fitness tracking module using PHP, HTML, CSS, JavaScript, and MySQL to log workouts, progress, and goals
- Created system flowcharts and contributed to detailed documentation for clear project structure and team collaboration

SKILLS

Languages & Frameworks	Design & UX	Tools & Platforms
JavaScript	Figma	Git
React	Adobe Photoshop	Github Pages
Python	Affinity (Canva)	PayPal API
HTML & CSS		REST APIs
MySQL/MSSQL		Vite

WORK EXPERIENCE/S

College of Education, Administrator Assistant | August 2025 - December 2025

Quezon City University, Quezon City

- Validated and digitized thousands of academic records, improving data accuracy and retrieval times for administrative workflows.
- Managed routing and approvals in the institutional DTS workflow, reducing processing delays by tracking and escalating stalled requests.
- Performed manual QA on documentation and processes, identifying recurring errors and proposing updates to the validation checklist.
- Used spreadsheets, systems, and digital tools for tracking

Internship, I.T. Support Staff | October 2024 - April 2025

Barangay Local Government Unit of Holy Spirit, Quezon City

- Organized and maintained thousands of records, ensuring quick retrieval and data accuracy through regular quality checks.
- Collaborated on improving data management procedures and standardizing information storage, boosting team efficiency.
- Compiled and analyzed data to produce comprehensive reports for management, supporting informed decision-making.

EDUCATION

Quezon City University: Bachelor of Science in Information Technology
Quezon City, Metro Manila

August 2021 - July 2025

South-East Asia Institute of Trade and Technology: ICT-CSS
Quezon City, Metro Manila

July 2019 - June 2021

CERTIFICATIONS

- TESDA: NC2 in Computer Systems Servicing** - Trained in computer installation, network/server setup, and troubleshooting.
- Python Programming Fundamentals** – Developed introductory programming skills including variables, data types, and basic I/O.
- Cisco Networking: Introduction to IoT** – Explored digital transformation, automation, IoT security, and data-driven insights.
- Cisco Networking: Cybersecurity** – Built core knowledge in threat analysis, network defense, and system safeguards.
